Must Be Alert For Aggression

U.S. Faces New Dangers, Herter Warns At Inquiry

WASHINGTON (AP) — Secretary of State Christian A. Herter warned Congress today that in the aftermath of the summit conference collapse the United States must be prepared "to withstand aggressive pressures from Russia" in Berlin and elsewhere.

Opening a full-dress Senate hearing into the summit failure and the related spy flight row with Russia, Herter said the most important lesson of the Paris explosion two weeks ago "is fresh realization of the dangers we face" and the need for the Allies to close ranks.

At the same time he advocated a "calm and resolute" posture toward the Soviet Union. He urged that the nation avoid "fruitless and damaging recriminations" over what has happened.

The inquiry is being conducted by the Senate Foreign Relations Committee.

A pledge that the senators will "strive to avoid bitter partisan debate" was given by committee Chairman J. William Fulbright.

While few in the free world doubt that Soviet Premier Nikita Khrushchev bears the chief blame

for destruction of the summit hopes, Fulbright told Herter "there are many who believe that our conduct has not been without fault."

The hearing was conducted behind closed doors, but with an arrangement whereby censored transcripts were to be delivered to newsmen as quickly as possible.

The initial documents reporters received were Fulbright's opening statement and a prepared statement by Herter.

The inquiry, Fulbright told Herter, would focus on these four areas:

"First, the events and decisions resulting from the U2 incident; second, the effects of these events and decisions upon the summit; third, the policy of our government regarding the summit meeting; and fourth, the policy of the United States in the future and possible improvement in the execution thereof."

Herter said that initial statements by the U.S. government were designed to keep the intelligence mission secret and to protect the pilot. He said that up to May 7 "statements followed the general line of the cover story and thereafter were adjusted to the situation as it developed."

He said that, since the U2 system had been compromised, "it was discontinued as any other intelligence mission would be in such a case."

Elaborate precautions were taken against any eavesdropping on the hearings.

A security guard with an electronic device that looked like an oversized black table tennis paddle checked the big hearing room foot by foot to make sure no microphone or other hidden device had been planted.

The device was connected by a long cord to earphones worn by the operator.

Democratic and Republican leaders stuck closely to a White House agreement Thursday that the inquiry would be conducted on a non-partisan level — so far as they can manage it.

But it seemed evident Senate Democratic Leader Lyndon B. Johnson of Texas would encounter difficulties in holding in leash some of his party members who contend that President Eisenhower blundered and who want the country to know about it.

Soviet Foreign Minister Andrei Gromyko, defeated Thursday in an attempt to have the council condemn U.S. spy flights over the Soviet Union, tried to achieve his end by implication. He proposed an amendment to have the small-power resolution read "refrain from any action which might increase tensions, including the dispatch of their aircraft into the airspace of other states."

In a 50-minute speech, the Soviet foreign minister said President Eisenhower in his radio-TV report Wednesday and broadcast to the whole world "a broad program of espionage and sabotage activity against the Soviet Union" and had, in effect, announced a continued "policy of dangerous provocations which, indeed, place mankind on the brink of war."

U.S. Delegate Henry Cabot Lodge in a statement Thursday night called Gromyko's charge "fantastic" and declared: "One could only wonder what might cause the Soviet government to say such atrocious things."

The Soviet resolution accusing the United States of aggressive acts was thrown out by 72 to 12 with only Communist Poland lining up with the Soviet Union. Ceylon and Tunisia abstained. The other members of the 11-nation council voting against the resolution were Britain, France, Nationalist China, Argentina, Ecuador, Italy and the United States.

Salary increases for city teachers totaling \$93,950, which will be partially effective next Jan. 1 and become fully effective at the beginning of the 1961-62 term, were approved by the Board of Education at a special meeting Thursday night.

Census For 1960 Shows Cleveland Dropped 43,393

CLEVELAND — Cleveland's population for 1960 was 871,415, lowest since 1920 and down 43,393 from a decade ago, census supervisors for Cuyahoga County said.

The 4.7 decrease in Cleveland population contrasts with a 62.4 per cent increase for the suburban outside the city but inside the county, which lists 1,642,439. Suburban residents within the county now number only about 100,000 under the total inside the city boundaries.

The census figure is about 70,000 under what Mayor Anthony J. Celebrezze predicted and about 5,000 under a State Division of Vital Statistics estimate in January.

Nudged from sixth to seventh place among the nation's largest cities in 1950 by Baltimore, Cleveland now stands a chance of dropping another notch. Ten years ago St. Louis was only 14,000 under the new Cleveland figure. St. Louis' 1960 population has not yet been announced.

The Calm Voice Of Reason

Against Premier Khrushchev's ranting, President Eisenhower has pitted reason.

He has offered his hand in good faith to the man who refused to touch it in Paris.

In contrast with the hot-headed hysteria and peevish ante politicking that were the bird-brained reaction patterns of some of his countrymen, Mr. Eisenhower has survived the Paris fiasco with his faith in the United States, the Western Allies and the possibility of negotiated peace still firm.

If he had planned to cut the ground from under the Kremlin and his opposition at home simultaneously, he could not have carried off a neater coup than his offer to resume negotiations at any time and in any place.

MAKING THE SPEECH that had been awaited by more people than any other speech in the cold war era that began after World War II, the President affirmed to a listening world that his government would pursue the same course it had been following, with one change.

There will be more high-altitude reconnaissance flights over Russian territory — not because they were wrong in themselves but because the foreign bases used in the project have been threatened by the Soviet Union. Satellites soon will be able to take adequate aerial photographs anyway.

As for the future of airplane reconnaissance, Mr. Eisenhower has repeated the open-skies offer previously turned down by the Russian government. He is willing to help equip the United Nations for continuous aerial reconnaissance to ease the tensions of the world.

Even President Eisenhower's severest critics must concede he did a masterful job of setting the record straight on the U-2 incident and the blowup in Paris. When he talks about them against the background of his official knowledge, the moutings of the Chicken Little who screamed the sky was falling because they had been scared by Chairman

Khrushchev's ranting are simply incredible reflections of faithlessness and ignorance.

As a voice of reason, the President never did a better job than he did Wednesday night.

THERE IS ONLY one misgiving: The voice of reason already had been drowned out by the bellowing of hatred.

The voice of reason in these times is only a whisper. The Kremlin would not permit it to be heard inside Russia. Peiping would not permit it to be heard inside China.

Reasoning has no followers among the Communist faithful. It can make no impression on hordes of ignorant, desperate human beings who are the raw material for conspiratorial Communism. Khrushchev has the advantage; he does not have to be reasonable.

This is not a new problem for reasoning men. Even in the United States, where men believe they have attained such a state of dignity no rabble-rouser can fool them, the voice of reason is drowned out as often as not by the howls of passion, hatred and prejudice.

But Mr. Eisenhower and his advisers have appraised the problem of the times correctly. The problem is how to defend the rational element of 20th century civilization against an irrational element whose leadership threatens to push the button that could blow life backward into nothingness.

IT IS THE CLEAR destiny of the United States and the reasoning nations to make the best defense they can against a conspiracy whose mission is to topple reason with distortion, good will with hatred and dignity with slavery.

To carry out this mission, the United States, itself, must rely on reason, good will and dignity, the qualities that distinguished President Eisenhower's anxiously awaited reply to Chairman Khrushchev's intemperate blast in Paris and the hate-American campaigns breaking out in every place controlled by Communism.

Nelson Rockefeller Would Accept

There's a saying in politics that no sane American would turn down a genuine draft to run for the presidency.

This is obviously what New York Gov. Nelson Rockefeller had in mind when he told his state's Republican delegates he would accept a draft. He is going on record as a sane American, a state of being that no one ever had doubted.

But even a sane American, confronted with the insanities and inanities of politics, must put on the cap and bells of foolishness sometimes to cope with the follies of the political trade. It's all part of the act.

For Gov. Rockefeller the problem is how to keep himself available for a genuine draft to run for president on the Republican ticket, in case something happens to Vice President Nixon, without seeming to make himself available for a draft to run for vice president.

First things first.

Gov. Rockefeller was willing to bid for the presidential nomination until it was made clear to him by the party's state chairmen that they preferred to give the nomination to Mr. Nixon. He never has said he was available for a vice-presidential nomination and never will say so, until there is no chance of first place.

That's a saying in politics, too — that no one in his right mind settles for second place as long as he has any hope of first place.

Gov. Rockefeller is eminently in his right mind. He has enough hope of first place to admit he would go along with a genuine draft. There will be time enough if he is disappointed to think about second place.

He knows what everybody else who has given two thoughts to the matter knows — that a Republican ticket of Richard Nixon and Nelson Rockefeller would be a powerful combination.

He knows something else that everybody else knows now — that the vice presidency of the United States never again will be the project in obscurity it was made to be until Dwight Eisenhower revolutionized the position.

Especially under Mr. Nixon in the presidency, the vice president would become in fact the alternate president, because if Mr. Nixon makes the grade he will be limited to two terms and will want to prepare his potential successor.

The news that Mr. Rockefeller would accept a draft for the No. 1 position is something less than sensational. He would accept a draft for the No. 2 position if the No. 1 position eluded him. You can bet on it.

The Measure Of Progress

It is doubtful that Tom Fawcett, whose little village of St. Clair became East Liverpool, would have been greatly disappointed that the population of the city did not reach the 25,000 mark in 1960.

Tom, whose birthday anniversary will be June 11, was a Quaker gentleman who hoped the tiny community of 1798 would prosper and who would have been amazed at the size and activities of the present city.

Even today's citizenry is occasionally taken aback at the extent of the community's energies. In the commercial field, for example, retail sales here amounted to a total of \$43 million in 1958-59, a considerable jump over the previous year's \$39.4 million.

But population and sales figures do not alone spell out a community's progress or retrogression. Ground-breaking for a new Trinity United Presbyterian Church, circula-

tion figures at the Carnegie Public Library, passage of a new school levy and continued attention to youth programs are among the intangible indices of improvement here.

Although East Liverpool no longer has the industrial stature of the late 19th Century, the city remains at the center of a spreading industrial complex. And most indications — such as population flow in the suburban areas, increasing sales and building construction — point up the city's future as a marketing and residential focal point.

We don't think Tom Fawcett would be disappointed in a look at his village "172 years after." We believe he would be rather proud of what has happened.

It is for those living here now to be a bit regretful that further planning and preparation for the future have not been made for the problems which continue to match our growing potential.

Electronic Brain Guards Ohio

By Carl W. Lamb

BELLEFONTE — Atop the highest point in Ohio, on a small green hill, sits a white radar dome which has the job of protecting millions of Ohioans from enemy air attack.

Passersby would look at the well-kept lawns and buildings blended neatly into the countryside and accept it as just another military base. But housed within the peaceful-looking buildings is equipment that would make Buck Rogers or Flash Gordon envious.

And this equipment has the difficult task of defending highly industrialized Ohio from enemy bombers.

Gone are the days of the radar operator sitting behind a radar scope in a darkened room looking for aircraft that appear on his set. Gone are the days of the man standing behind the transparent plotting board drawing arrows which represent the planes the operators have found on their scopes.

Since September 1959 the 644th Radar Squadron just southeast of Bellefontaine in Logan County has been integrated into a fantastic new system called SAGE — Semi-Automatic Ground Environment plan. SAGE is a system which does everything by itself without very much help from man.

It does it faster, more accurately, and with greater capacity than the old radar operator once did.

C. W. O. Vernon F. Scott, communications and electronics chief at the base, said: "Thank God we have it! I sleep much better at night knowing that the SAGE system is working for us."

THE PILOT in the fighter interceptor receives his information from the computer which tells him how fast, how high, and what course to take to intercept the unknown aircraft. Once the fighter intercepts and identifies the aircraft as our civilian plane, the fighters return to base.

The real picture of air defense in Ohio can be seen only from the sector located at Custer Air Force Base at Battle Creek, Mich., for it is here where the real battle is waged.

HOW does this system work? How can a piece of machinery remember all the information that used to tax the brains of 50 men?

Let me say a civilian jet transport takes off from New York and is flying to Chicago. Before the plane takes off the pilot must file a flight plan—the route he is going to fly. Information on the flight plan also includes speed, altitude and estimated times the plane is supposed to be over certain cities like Pittsburgh and Cleveland.

On and on it goes. Tests are run continually. B50s and B52s, Strategic Air Command bombers, run exercises to see if they can sneak through the net. Some do, but most of them are detected and intercepted.

THE ACTUALLY, with the new system the 644th only monitors the equipment. All aircraft signs picked up by the search radar dome, are within a fraction of a second relayed to the Detroit Air Defense Sector at Battle Creek, Mich., where two large computers store the information until it is needed.

You should see those computers, too," said Scott. "There are two of them. A main one and a back-up. And it is really funny because if one gives the wrong information the back-up will start flashing lights and ringing bells to let you know the main computer has made a mistake. Almost like two kids telling on each other."

The defense sector displays and acts upon all information sent to them by the radar site. The two computers do all the thinking mechanically and only need assistance from man to get things rolling. The Detroit sector has Ohio included in its area of responsibility.

Yet the job of the men at the 644th is an important one. The equipment needed to keep an automatic tracking system working is complicated and awesome in its size. Flashing lights, huge metal containers housing equipment necessary for the transmission of information, and row upon row of electronic equipment all add up to a 100 per cent effort by all to keep things running.

Today a small detachment of Philippine navy men serves at the rusting and weedgrown fortress, and at a high point on the island a lighthouse guides ships into Manila Bay.

There has been talk for some years about building a memorial to the men who died here. In 1958 a bill was passed in Congress authorizing \$7.5 million for this purpose, but the Senate failed to act on it. The bill has been re-introduced.

It said: "The secretary indicated that the behavior of the Soviet leaders since Paris may be interpreted either as a desire to avoid bringing on a war crisis or as psychological in order to pull the wool over our eyes prior to some threatening act. He anticipates further spectacular action by the Russians in the months to come."

But Morgan said Herter didn't think the Soviets would make a warlike or definitely hostile move.

A Study In Contrasts

Ike Gives Calm Review Of U-2 Incident

What a contrast there is between the ill-mannered and abusive outbursts of a personal nature emitted by Nikita Khrushchev in the last 10 days and the calm and restrained address which President Eisenhower delivered on Wednesday night to the American people.

For bearance in the face of an adversary's insults is a Christian virtue that is not always easy to maintain.

But the President showed he was above the sort of controversy indulged in by the Soviet Premier in his unprecedent attack on the chief executive of another state.

Never in the annals of diplomacy, so far as this writer can recall, has any international conference yielded such intertemper language and such utter disregard of the amenities of states in their relations with each other.

But notwithstanding all the boorish "diplomacy" of Mr. Khrushchev, the President still wants to continue businesslike dealings with the Soviet leaders on outstanding issues and, improve the contacts between our own and the Soviet peoples, making clear that the path of reason and common sense is still open if the Soviets will but use it.

Certainly this should brush aside many of the criticisms and focus attention on the main issue, which Mr. Eisenhower described when he said:

"Our safety, and that of the free world, demand, of course, effective systems for gathering information about the military capabilities of other powerful nations, especially those that make a fetish of secrecy."

This involves many techniques and methods. In these times of vast military machines and nuclear-tipped missiles, the ferreting out of this information is indispensable to free world security.

"This has long been one of my most serious preoccupations. It is part of my grave responsibility, in the over-all problem of protecting the American people, to guard ourselves and our allies against surprise attack."

The President stressed the fact that Soviet Premier Khrushchev knew about the U-2 flights when he visited the United States last September but raised no question then.

As for discontinuance of the flights after Francis Powers was downed, Mr. Eisenhower made it clear that this particular type of operation now is no longer necessary.

"Obviously the new satellites cur-

rently in the latest stages of development can take care of the same needs of aerial inspection.

Evidently the Soviets have never objected to space satellites because they themselves use them.

The President, moreover, answered effectively the question of why the flights were made just before a summit meeting. He said:

"The plain truth is this: When nation needs intelligence activity, there is no time when vigilance can be relaxed. From Pearl Harbor we learned that even negotiation itself can be used to conceal preparations for a surprise attack."

THE TRAGEDY of Pearl Harbor is still fresh in the minds of the American people, so many of whose sons were lost in the war which we were compelled to enter in December 1941.

The accident occurred near the Beaver Creek Bridge at Smiths Ferry at the intersection of Wilson Hill Rd. and Route 68, Bernard Latovich, Ohio Township police constable, reported.

Mrs. Elizabeth Czech, 65, of 222 Jefferson St., received a possible neck injury, the hospital reported. She was admitted at 3:10 p.m.

Mrs. Czech was a passenger in a car driven by Brenda J. Barcus, 2101 Ohio Ave.

Zlatovich said all three cars were headed toward Midland. The first car, driven by Phyllis Marie Jackson, 820 Pennsylvania Ave., had stopped to make a left turn onto Wilson Hill Rd. and was waiting for oncoming traffic to clear,

3-Car Crash Hurts Woman

An East Liverpool housewife is in "fair" condition today at City Hospital with injuries suffered in a three-car accident Thursday at 2:30 on the Midland Rd. A city man also was hurt.

The accident occurred near the Beaver Creek Bridge at Smiths Ferry at the intersection of Wilson Hill Rd. and Route 68, Bernard Latovich, Ohio Township police constable, reported.

Injured In Accidents

Two Wellsville women were hurt slightly in separate mishaps Thursday afternoon, Wellsville police reported.

Mrs. Merle McPherson of Chester Ave. was taken to a physician for an examination after her car struck a tree in the yard at the home of Charles W. Stewart, 214 Wells Ave., about 3:20 p.m.

Police said they were unable to question Mrs. McPherson. However, indications were the gas pedal stuck, they added.

Mrs. Mary Pucci, 712 Diamond St., complained of an arm injury after the car in which she was a passenger operated by Frederick F. Frost, 206 Wells Ave., collided at 10th and Center Sts. with a car driven by Robert J. Barcus, 131½ Main St.

Police said the traffic signal apparently was faulty since both drivers maintained the two-light signal was on red and green.

4 Bands Due In City Parade

(Continued from Page One)

In the parade, he sent a letter of confirmation to the committee.

The memorial program will be held in front of City Hall immediately after the parade. In case of rain it will be staged at 3:30 p.m. at the VFW auditorium, Sherwood Restaurant, chairman, announced.

Principal speaker will be Bennett D. Taylor Jr., of Lisbon, executive of the Columbiania County Boy Scout Council and a major in the Army Reserve.

Major Goodballet will be master of ceremonies. The High School Band, directed by Donald C. Allen, will play the national anthem and "America." Chief Petty Officer James Pattison, local Navy recruiter, will lead the audience in the pledge of allegiance. The Salvation Army Band, directed by M. H. Clark, will play a selection. Miss Mary Sablack, a high school junior, will recite Lincoln's Gettysburg Address.

Following Taylor's address, combined firing squads will fire a salute and "Taps" will be played by Don Smith and Dan Richards, cornetists in the high school band.

The invocation and benediction will be given by the Rev. C. Howard Canon of the Oakland Free Methodist Church.

Taylor, a native of Bourbon County, Ky., has been in Boy Scout work since 1941. He entered the Army in 1943 as a private and advanced to the rank of major. Serving in the infantry in Europe, he received 15 awards and decorations, including the Silver Star, the Purple Heart and the Bronze Star with oak leaf clusters. In 1948, the Junior Chamber of Commerce named him West Virginia's "Outstanding Young Man of the Year." A graduate of Transylvania College in Lexington, Ky., he is a member of the Lisbon Presbyterian Church.

The Women's Civil Defense Council will operate first aid stations along the parade route — at City Hall and on E. 6th St. near Walnut St. Girl Scouts will distribute programs. The line of march will include Boy Scouts, the local Bethel of Job's Daughters, students of the Ronnie Boston Dancing School, four CD units, a fire truck, and a police car.

Two other observances will mark the holiday. The annual service will be held on the Chester Bridge at 10:30 a.m., sponsored by the Ladies of the GAR. American Legion Post 34 will provide a firing squad and color guard for the rites.

Post 374 will hold a service at 9 Monday morning at the veterans' plot at Spring Grove Cemetery.

Veterans and patriotic organizations will mark the graves of all deceased veterans in East Liverpool district cemeteries, expecting to complete the task by Sunday. Each grave will be marked with a flag.

A spokesman said if any grave is overlooked, a relative of the deceased should phone any veterans' organization, which will have the plot marked.

In addition to the work of the veterans' and women's groups, Mrs. Gertrude Ward of W. 8th St. will follow a long-standing custom of marking a lone veteran's grave in a plot near the West End School.

3 Youths Given 5 Days On Charge Of Drinking

Three 17-year-old East Liverpool district youths were given 5-day terms in the juvenile detention room at County Jail and fined \$15 each when they appeared today before Juvenile Judge Louis Tobin at Lisbon on charges of drinking.

The boys were taken into custody at 1 this morning near Calcutta by sheriff's deputies.

The boys told the judge they were hitch-hiking from Wellsville to East Liverpool when they were picked up in a 1955 auto by a man they knew only as "Jim." At their urging, he went to a Dresden Ave. tavern and purchased two fifths of wine and quantity of beer which he turned over to the boys, they related. State's Key Witness

Ballistics Expert Takes Stand In Hargrove Trial

PAINESVILLE, Ohio (AP) — A ballistics technician, considered the state's key witness in the murder trial of Floyd E. Hargrove, resumed testimony today before a Lake County Common Pleas Court jury.

Emory Galloway, the technician, was on the stand briefly before the trial recessed Thursday afternoon. He is supervisor of the Ohio Crime Laboratory at London.

He testified that his studies rule out any possibility that Charles R. Clark was slain by a shot fired from a pellet gun. The defense has indicated that Clark might have been killed by the accidental firing of a pellet gun by neighborhood boys.

Clark, 35, a Boy Scout leader and Sunday school superintendent, was hit in the temple by a bullet fired through a kitchen window at his home in nearby Mentor last Christmas Eve.

Galloway told the court the bullet hole in the window lined up perfectly with a small hole in a

clump of trees 42 feet behind Clark's house.

The state contends Hargrove, a 35-year-old delivery truck driver, killed Clark because he was in love with the victim's attractive wife, Lois, 31. The widow, a former fashion model, testified earlier in the trial that she had been intimate with Hargrove.

Galloway was expected to

ANSWERS YOUR PROBLEMS

Dear Ann Landers: My brother lost his wife four years ago. We were thrilled when he told us he had met a woman he wants to marry. She lives in New York and he met her in Florida several months ago.

The woman arrived in town a few days ago and I gave a party so she could meet the family. Ann, she is VERY nice, but, she smokes cigars.

My mother and aunt almost fainted when she lit up. A cousin asked her when she picked up the cigar habit and she nonchalantly said, "In Rome, two years ago."

This is a rather small and conservative community. I'm afraid she's going to be the topic of plenty of conversations. What shall we do?—THE FAMILY.

Dear Family: Nothing. I sus-

pect that any woman who smokes cigars enjoys the "conversation" at least as much as she enjoys the cigars.

Unwanted Guest

Dear Ann: We are a group of girls, all 14. A certain girl at school is very loud and always wants to be the center of attention.

She runs after boys and is awfully unladylike. The trouble is, this loud girl has a nice mother who is friendly with my mother.

Well, our group is having a house party with boys. We decided not to invite this loud girl.

The day after the invitations were sent my mother told me the loud girl's mother had phoned Janet cried all day because she was not invited.

My mother told Janet's mother she'd talk to me and fix it up. So I had to say, "Let her come."

Lodge Accuses Soviet Union Of 'Spying' With Gift Eagle

UNITED NATIONS, N.Y. (AP) — Memo to U.S. ambassadors: Always look a gift eagle in the beak.

Otherwise the great bird might turn out to be a spy, like the eagle on a copy of the great seal of the United States which Ambassador Henry Cabot Lodge displayed to the U.N. Security Council

Midland Man Re-Elected By Heart Society

Nile H. Wain of Midland has been re-elected to a three-year term as a director of the Beaver County Heart Association. Dr. David L. Charon of Aliquippa was elected president. Mrs. Carl F. Brand of Beaver is executive director.

Later, he continued, the plaque was found to be hollow.

"Here is the clandestine listening device with the aerial, right under the eagle's beak," said Lodge, taking the plaque apart and explaining that persons outside with a receiver could pick up conversations the eagle overheard.

Soviet Foreign Minister Andrei Gromyko asked derisively what the "prop" came from.

"It's not out of a play," Lodge replied. "It's out of the Soviet Union."

Lodge did not say to which ambassador the plaque was given or when it was discovered. But W. Averell Harriman told newsmen the plaque had been given to him in 1945 when he was ambassador to Moscow and he understood the listening device was discovered in 1952, when George F. Kennan held the post.

"I hung it up over the fireplace in my study," said Harriman. "It was not bugged when I had it."

Harriman added that the listening apparatus could have been installed in the seal sometime after his departure, when the room was being redecorated, for example.

Wellsville Firm Makes New Tub

The Wesco Manufacturing Co. of Wellsville has gone into production of a new line of "Armor Glass" laundry tubs for home use.

The tubs are much lighter than the cement models which Wesco will continue to manufacture. The tubs come in a choice of colors and will be marketed in cabinet and stand units, single and double tub sizes.

The line was designed by Myron (Mike) Weis, president of the company established in 1947.

One feature of the new product is its large capacity to match that of present-day washers with a minimum of floor space. The tub will hold 25 gallons at any water temperature without sagging.

The tubs are molded in one piece and are impervious to alkalies, strong detergents or common acids, the firm claims.

Wesco also produces cement laundry trays, terazzo shower bases and copper tubing hangers. The new product will be distributed through its present chain of plumbing jobbers.

Appeal Likely By Dairy Firm

The withdrawal of a Common Pleas Court order permitting the McAllister Dairy Co. to sell milk in the city despite opposition from the Board of Health has left the dairy and board uncertain as to the next move because neither has received official notice of the action.

Temple McAllister, head of the Warren firm, said this morning he has not yet received full information concerning Judge Joel H. Sharp's lifting of the injunction, and consequently has not made any specific plans.

McAllister indicated the firm would file an appeal in the case, and will continue sale of milk until otherwise notified.

The ruling caught health authorities by surprise as none was called to appear at the hearing.

Dr. E. G. Kuhlman, city health commissioner, said the board does not anticipate any action immediately, pending a study of the ruling and consultation with City Solicitor Joseph Cooper.

The injunction, withdrawn by Judge Joel H. Sharp Wednesday, was obtained by the dairy firm in 1958 in order to continue sales of milk in the city.

In December 1958 police halted truck delivery of milk when the board refused to grant the dairy firm a permit. The McAllister firm obtained the injunction, claiming the health department was being discriminatory.

McAllister, operator of the dairy, said the city health sanitarian was a former employee of the dairy who had been discharged. The injunction was issued with the dairy posting a \$1,000 bond and the health department continued making inspections.

The dairy firm obtained a city permit in 1956, and the controversy over the inspections came about 2 years later when renewal of the permit was refused.

The board claimed samples of milk showed the dairy had failed to meet board standards on bacteria count, butter fat and pasteurization on various occasions. The city's milk code was adopted in 1953, and inspection fees were inaugurated a year later to provide funds for the costs of inspection.

THE CLASS will be read by Miss Saling and Jim Tanner and the class prophecy by Miss Ward, Miss Blackburn and Miss Crosser.

Mrs. Graham Kearney played for the professional while members of the Senior Class marched in and took their places on the stage where the awards were given before the student body.

Live Television Becoming Lost Art

I sat in the audience Sunday at NBC's Burbank color studios while the cast of the *Dinah Shore Show* worked off its dress rehearsal jitters, kidding with the audience and with each other.

The band worked on a lovely waltz bit. The singers fidgeted. The dancers danced a step or two. Dancers have a great advantage in these matters. They can loosen their muscles, while waiting. They don't tight up like the singers.

The moment of tense expectancy communicates to the studio audience even before a dress rehearsal. Before air, it gets worse, feeding from the actors to the audience and back again, giving them that last shot of adrenaline.

IT'S THAT little bit that makes the difference between live and film or tape. That's why all — well, almost all — the most memorable things ever done on television have been live, from Sid Caesar to Kefauver to McCarthy to "Requiem for a Heavyweight."

There should be a requiem for live television. As the orchestra struck up the opening of those deathless chords, "Drive Your Chevrolet through the U.S.A." I felt I was watching the last rites of a dying art.

The *Dinah Shore* show is live. Steve Allen is live. Virtually nothing else is. Except for the Jack Benny and Red Skelton shows and a few daytime programs originating there, CBS' huge *Television City* — now that "Playhouse 90" is virtually dead — is almost deserted.

It used to be a hive of great live dramas like "Playhouse 90" and "Climax." Even the soap operas — save for one — come from somewhere else.

WELL, LIVE TV is not entirely dead. Down the hall at Burbank, actors already were rehearsing for the opening mystery story which will replace the *Dinah Shore Show* Sunday. It will be live.

On stage, Art Carney was in the first sketch. He was playing a studio sweeper who longs to meet *Dinah Shore*. Suddenly a locker door stuck. One of those things that strike terror into the hearts of directors. It needn't.

"This happened on the Gleason Show," said Carney, grinning like an imp. The door came unstuck. The rehearsal went on.

It was Miss Shore's last show of the season and it was a good one. Carney got every bit of fun out of the sweeper bit . . . He's at his best when the material is human, as this was.

Miss Shore skylarked with Carney, romped through a mystery sketch with Walter Slezak and Carney that was a little overlong, and sang a duet, "Hallelujah," with Mahalia Jackson that was truly a rouser.

The show ended with one of those NBC finishes — Miss Shore

Kiwanis Airs 'Family Life'

A general discussion on aspects of family life was held by members of the Kiwanis Club Thursday at the Travelers Hotel.

Members answered questions about family responsibilities, activities and other factors presented by the Rev. Marc A. Nocerino of St. Stephen's Episcopal Church and the Rev. James Hunton of the First Church of the Nazarene. John Mostoller, minister of the First Church of Christ, chairman of the church support committee, spoke briefly about the general trend toward fewer family ties and the outside pressures on the home.

He referred to Russian and Chinese experiments with eliminating the role of parents for the state to rear and educate children.

He said there has been a "withdrawing away" of family life in the United States, and said the discussion would center upon some characteristics of home life of members.

Discussed were such subjects as the father as the head of the family, obedience of children, the family doing things together, meals shared together, prayer in the home and the role of the wife and mother.

Harry Martin, a member of the committee, designated the members to answer. William Porter, president, was in charge.

Seniors Become Ill, Food Check Slated

CLEVELAND (AP) — County health authorities will analyze samples of food eaten by 600 Euclid High School seniors at their banquet in an effort to find out what made half of the seniors sick. Some 300 were sent home Thursday suffering from an intestinal disturbance.

They had attended a banquet Wednesday night at a restaurant connected with a motor hotel in Euclid. Fifteen of the 50 teachers at the banquet also complained of not feeling well, but they continued to hold class.

Weather Hit Corn Planting

When is a frost not a frost? Ask some Hancock County farmers whose early sweet corn planting suffered severely in the 8-day cool and wet spell early in May.

Oliver Johnson, county agricultural agent, estimated 50 per cent or more of the plants were killed and 150 acres of sweet corn affected to varying degrees.

Terming it "a freak act of nature," Johnson said, "I cannot remember another period of time with as little sunshine during the growing season."

"Perhaps we can get frost injury without frost," the agricultural agent commented, declaring some growers said the plants were damaged by frost but admitted they never saw any frost. About the lowest recorded temperature was 36, Johnson said.

His own theory, he said, was the injury resulted from the rapidity with which fertilizer salts were taken up into the leaves. Since there was little or no sunshine, there was no food conversion or manufacturing taking place in the plants.

ELHS Starved For State Titles . . .

Thousands of victories and a bushel or more of defeats have gone over the dam in the past 50 years, but in this time East Liverpool High School has never won a bonafide state championship—in anything!

The Potters have had three state wrestling champs, but this is on an individual basis and not by a team.

By this time the East Liverpool golf team will have completed its first round of 18-holes on the Ohio State course. If this quartet can manufacture a state championship it would be the first in the annals of the local high school.

About the closest that an ELHS team has come to winning a championship was the 1946-47 basketball team which gained the runner-up spot in the state.

Then there was the time in 1952 when the cross-country team came home first in a state meet, but it was only an unofficial championship.

The cross-country team arrived too late to qualify in the district meet at Akron a week before the state meet and therefore competed unofficially.

Don Chadwick, who wrestled for Lou Venditti from 1948-52, was the first in the school's history to win an outright championship.

Don won the 156-pound class in

1952. Darryl Hoppel followed with two state wrestling crowns in 1954 and 1955.

His brother, Jim, also copped a state crown in 1955.

The 1960 golf team set a first for this sport by winning the district crown. A year ago the team was runner-up.

Back in 1937, the Potter golf team finished second in the district which qualified the Potters for the state meet. However, a lack of funds at the time, kept the golf team at home.

WHAT ARE the Potters' chances? Craig Burbick, the veteran of the team, answers this question best.

Craig, who has played in Ohio Jaycee tournaments and knows his way around high school golf, points out that Shaker Heights of Cleveland will be the "team to beat."

Shaker Heights won the championship last year and has most of its team back. Other strong opposition is expected from the Columbus area.

"We are going to have to work over our heads to win," Burbick said.

Twenty-one teams are entered in the meet.

Maybe this 1960 golf team can be the school's first state champ, if not—anyone for tennis?

Track Of Progress . . .

SOME RACING fans who visited Waterford Park last fall may think they are in the wrong place when they return anytime during the meeting which opens Memorial Day.

The "track of progress" continues its theme. The big change at Waterford is the new mezzanine which stretches through the grandstand.

The addition of the mezzanine will prove itself a convenience to patrons.

President James Edwards and managing director Horace Wade have also come up with a first. Instead of one daily double covering the first and second races, Waterford will offer a second or "get even if you can double" on the eighth and ninth races.

Wade is more optimistic this spring than he has been in his three years at Waterford.

This 'N That In Sports . . .

SIX Chester athletes, who graduated last Monday, are planning to continue their education and athletics at college.

A trio of John Steele, Ken Sayre and Bill Mayhew have their eyes on Geneva College at Beaver Falls. Bob Shaffer will attend West Virginia University while Larry McSwain is eyeing West Liberty and Steve Chapko, the outstanding lineman in football, may head for Marshall College.

WHO says athletes aren't scholars? Jerry Lucas, All-American basketball player compiled a 3.50 average out of a possible 4.00.

Along with him were three other members of the national champion

basketball squad who had better than 3-point averages.

GEORGE HELLER of Rogers has wandered into the winner's circle several times already this year. Heller won a stock car race at the Greater Pittsburgh Speedway last Friday, then the following night came home first three times at Debo Speedway in Steubenville.

GLENN BARNETT, who has served as president of the East Liverpool City League many seasons, has been named to the board of directors of the American Baseball Congress. Headquarters for Ohio are in Akron.

EL Golf Team, 3 Track Stars Vie At Columbus

The East Liverpool golf team, plus three district track stars, vie today and Saturday in state competition at Columbus.

The Potter golf team won the district title last Saturday with a 327 total. Low for the Potters in the district championship was Rick Crable who covered the 18 holes with a 79, while Craig Burbick and sophomore Bob Puff fired 81's and Sam Hughes 86.

Twenty-one teams were entered in the golf meet. First rounds were fired this morning and early this afternoon. Shaker Heights, the 1959 champion, is favored.

While the golf teams will be firing away on the Scarlet course at Ohio State University, Ohio Stadium will be buzzing with the state's finest in track and field. Trials are set Friday afternoon with finals Saturday.

Indians Gain First Place The Easy Way

By ED WILKS

They can be the league-leading Baltimore Orioles or a bunch of second division birds. Either way they're dead ducks against Whitey Ford.

The stubby southpaw, bothered by elbow trouble and home runs, looked as good as ever Thursday night, pitching a three-hitter as the New York Yankees beat Baltimore 2-0 and eased the Orioles out of the American League lead.

In the National League, San Francisco padded its lead to 1 1/2 games with a 9-0 victory at Philadelphia on Jack Sanford's

four-hit pitching. Milwaukee defeated St. Louis 4-1. No other games were scheduled.

Ford gave up a second-inning double by Brooks Robinson and a third-inning single by losing pitcher Skinny Brown, then didn't allow another hit until rookie Ron Hansen tripped with two out in the ninth.

The Yankees beat Brown in the

first inning on Tony Kubek's lead-off single, a walk and Bob Cerv's two-out single. Singles by Bill Skowron and Bobby Richardson

got the other run home in the seventh.

Dick Brown's two-run homer

and an RBI triple by Minnie Minoso gave the White Sox their

runs in the first three innings

against Dick Hall (4-1). Gerry Staley who came in with the bases

loaded and one out in the seventh

and got pinch-hitter Hank Bauer (2-3),

on a doubleplay ball, saved the

victory for Bob Shaw (4-3), who

gave up four of the A's five hits.

Pete Ramos won his second in

a row with a five-hitter for the

Senators, after losing his first

five. A two-run single by Julio

Becquer capped a winning three-

run fifth against Jerry Casale

(2-3).

Mike McFarland picked up the victory, but needed help. Laughlin's Len Walker fanned 11 Golden Star batters and only allowed one hit, but still was checked with the loss.

The lone base hit off Walker was a triple by McFarland.

Wright struck out 10 and allowed four hits. All of Chester's six hits off Leon and Clutter were singles. Brewer clubbed a triple and Goldin a double for Burbicks.

Giants Drop Phillies, 9-0, To Pad Lead Over Idle Pirates

Braves Continue Spurt In 4-1 Win

By ED WILKS

Associated Press Sports Writer
Joe Adcock's at it again and Milwaukee's so-so Braves have come alive, winning four of their last five.

The big first baseman, bothered by platooning and a bad back, has driven in seven of Milwaukee's 17 runs in that spurt while upping his batting average to .352. He was 2-for-4 and rapped across a run as the Braves scored a clinching three in the second inning Thursday night for a 4-1 victory at St. Louis.

San Francisco padded its first place lead to 1½ games over idle Pittsburgh, flattened the Phils again with a 9-0 victory on Jack Sanford's four-hit pitching and a trio of homers. No other games were scheduled in the NL.

In the American League, idle Cleveland took over first by .012 percentage points over Baltimore. The Orioles slipped to second with a 2-0 loss at New York as Whitey Ford pitched a three-hitter for the fourth place Yankees. Third place Chicago climbed within a half-game of the top by beating Kansas City 3-1. Washington defeated Boston 5-2.

Adcock and winning pitcher Bob Buhl (3-2) each singled home a run in the second for the third place Braves, who trail by four games. The Braves counted 11 of their 12 hits off loser Wilmer Mizell (1-3).

The Cards scored in the fifth on Bob Neiman's first NL home run, one of his three hits. Buhl, the first to put away three complete games on the Braves' staff, gave up seven hits, walked three and struck out nine.

Orlando Cepeda, who drove in four runs, Ed Bressoud and Willie Mays homered as the Giants banged a dozen hits for a sweep of the three-game set at Philadelphia and a 6-0 record against the Phils. It was Sanford's fifth victory in six decisions and his second shutout over his ex-mates.

Gene Conley (2-2) dropped his second to the Giants, giving up their three runs on Cepeda's eighth home run and Bressoud's

fourth. Reliever Ruben Gomez, one of the guys the Phils got in return for Sanford two years ago, was tagged for five runs in the ninth. Mays' No. 4 homer, with two on, capped it.

Indians Open 3-Game Series With Detroit

DETROIT (AP)—The Cleveland Indians, now leading the American League, open a three-game series with the Detroit Tigers tonight with Gary Bell, the Tribe's ace right-hander, opposing Jim Bunning.

Both Cleveland and Detroit were idle Thursday, but the Indians took over the league lead when the New York Yankees defeated the Baltimore Orioles Thursday night.

Wynn Hawkins, rookie right-hander, will face Don Mossi, a former Indian, in the second game of the series Saturday and Jim Grant opposes Frank Lary Sunday. Mossi and Lary defeated the Yankees in their last starts.

The Tigers take a four-game winning streak into the series opener. They beat the Boston Red Sox twice Sunday and then won two games from the Yankees.

Roc Colavita, who came to the Tigers from Cleveland in exchange for Harvey Kuenn just before the season opened, will be on the bench tonight.

Colavita played every inning of every game until Sunday, when he was benched by Manager Jim Dykes because his batting average had dropped to a feeble .161.

Dykes has indicated that Rocky will remain out as long as the Tigers keep winning or as long as Neil Chrisley, his substitute in right field, keeps hitting.

Tressel Appointed As B-W Athletic Head

CLEVELAND (AP)—Lee J. Tressel, football coach at Baldwin-Wallace College, becomes athletic director at B-W next fall.

Tressel, who came to Baldwin-Wallace two years ago from Massillon High School, at present is acting athletic director.

He succeeds Ray Watts, who has reached the compulsory retirement age of 65 after 32 years as athletic director.

Tressel played fullback at B-W in 1943, 1944, 1946 and 1947. He coached at Ada, his home town, for two years, and at Mentor before going to Massillon.

Announcement of the appointment was made Thursday night by Alfred B. Bonds Jr., president of Baldwin-Wallace.

Bringing Up A Family

By GARRY C. MEYERS

Observations Of Parental Kindness

At a transportation depot one sees and children, were guests in many homes in all parts of the nation. The delightful atmosphere of loveliness between parents and children stands out clearly in my memory.

ALSO, I REMEMBER many a youth in these homes with whom we conversed uninterrupted by the parents. I've always enjoyed comfortable conversation with a child five, 12 or 15, in his own home.

At lunch today I sat where I heard and saw a dad and his grandson. They enjoyed each other, and I enjoyed them.

On my way home, I met a young father with three of his children under ten. They always look happy together whenever I see them. So does the mother when with the children.

This father stopped to tell me that his wife and baby were off on a vacation to California. This was the mother's vacation away from the rest of the family, and he related how he and the kids were keeping the house without her.

Close by our rural home is a family of two boys, now in college, whom Mrs. Myers and I have seen grow up from infancy. The kindly ways of their parents toward them, and the parent-child enjoyments now and during the lifetime of these lads, have always delighted and inspired us.

WE ENJOY HAVING these young men drop in and tell of their college experiences, plans and dreams. Yet their parents were far more strict with them in their early years than are most parents.

How often one may see parents and children, obviously touring, who are in an eating place together. The quiet kindness of these parents and the comfortable and co-operative bearing and behavior of these children nearly always impress me and give me a glow of satisfying hope and faith in good American homes.

By the way, much may be said in favor of the family all going out for dinner together once in a while, even when in order to do so, there must be some pinching of pennies and cutting down on the home food budget.

It can have a refining influence on the children and help them better appreciate the reason for

"50¢ a tablet can be cheap!"

No one likes to pay 50¢ for a single tablet —including us. Nevertheless, some of the

newer drugs cost that much. They seem expensive —yes, only seem. Consider this: Pneumonia used to mean 4 to 6 bedridden weeks. Loss of pay. Often hospitalization. Often death. Now, a few dollars' worth of one antibiotic will generally cure pneumonia in days. And this is only one example . . . there are many others. When you consider what a few 50¢ pills will do for you, they seem downright cheap.

Former Car Salesman Charged With Fraud

AKRON, Ohio (AP)—A former automobile salesman, John S. Usleher, 42, has been arrested in connection with an alleged insurance claims fraud.

Usleher, charged with fraud Thursday, is the ninth person arrested in the alleged swindle, which officials say may amount to more than a quarter of a million dollars. He was placed under \$2,500 bond.

The former salesman is accused of receiving \$4,300 from the U.S. Fidelity & Guaranty Co. for injuries from a two-car collision Jan. 15, 1959, at an intersection south of here. Authorities said no such accident occurred and the other driver listed in the reports was non-existent.

Keep In Trim

By IDA JEAN KAIN

Light Touch Suited For Social Calories

It's a mistake to make an issue of calories at social functions or in day-to-day living. Certainly one should not feel she is a "misfit" simply because she does not want to indulge in fattening foods. One former overweight has asked for

me to refuse and makes me miserable to have to eat such stuff.

"At lunch, everyone comments when I eat the same simple fare every day instead of high-calored casserole dishes. Even in restaurants I have difficulty putting together a decent meal. In the moderately-priced restaurants the dishes have thick sauces, starch vegetables, and only rich desserts.

"As I said, I am a misfit. I don't expect society to change, but I cannot change myself to fit in. Is there anything else I can do to alleviate my predicament?" Yes, you can. First, take a whole new approach to the situation. It will help you to be a more understanding person when you realize that the friends and relatives who are making things tough for you are reacting in self-defense. It is part of their self-indulgent protection. So don't strike back.

YOU DESERVE praise. Your accomplishment took a high moment of courage. At the moment you are super-sensitive on the calorie score. Take the chip off your shoulder.

Cease to protest. You'll help them, and yourself, by saying enthusiastically, "I feel so wonderful!" Then turn the conservation immediately to something of particular interest to the person with whom you are talking.

In a restaurant do the best you can and resolve not to fret about it. At evening spots you need not eat anything you do not wish to eat, nor be disagreeable. Use the light touch. Make this a new approach, and it can be an adventure in happy living.

VFW To Hold Fishing Contest For Children

Veterans of Foreign Wars Post 66 will hold its second annual children's fishing rodeo Saturday from 1 to 4 p. m. at the Casting Club.

The event is open to any child up to 15, according to Nick Turkula and Harry Simpson, co-chairs. Some 200 are expected to participate.

Nine prizes will be awarded in three age groups. Prizes will be given for the biggest fish, smallest fish and the one catching the most.

The children may keep all they catch except bass. Hooks will be furnished and the children must provide their own pole, line and stringer.

Lisbon Student Picked For Memorial Address

LISBON — Miss Susan Zaplata, a senior, won a speech contest held Wednesday afternoon at David Anderson High School to name a student to deliver an address at the village Memorial Day program Monday.

Students who competed are members of a speech class taught by Miss Barbara Dei. Judges were Atty. William Moore, W. S. Frew and Paul Young of the Lisbon Journal.

The record number of immigrants admitted to the United States occurred in 1907, when the number totaled 1,285,480.

Congressional District Shows 328,000 Persons

Some 328,000 persons and 106,000 housing units were counted in Columbiana County and the four other counties of the 18th Congressional District, Howard M. Borden, district census supervisor, reported in a final statement on the office's activities.

With the closing of the office at Steubenville today, Borden commented on the 1960 census in this district, terming it a "successful completion of a task of no small proportions."

"The public is to be commended for its excellent co-operation as a whole in getting the job done and in making possible a reasonably accurate count," he said.

Borden also cited the "diligent and conscientious efforts of hard-working crew leaders and enumerators, sometimes walking miles through snow, rain or mud."

"The newspapers, radio and television stations contributed to a great degree toward the success of the difficult task by giving many columns of valuable newspaper space and hours of time to stimulate public interest and cooperation."

Judgment Given To City On Overdue Water Bills

The city water works department was awarded a default judgment for \$122.76 in Municipal Court Thursday against R. F. Prescott of W. 7th St., against whom it had filed a civil action for money claimed due on water bills for 3 pieces of property.

Solicitor Joseph W. Cooper appeared for the city when the case was called before Judge Samuel M. Chertoff. Prescott did not appear. Under the rules of pleading, a judgment can be entered without taking of evidence in such circumstances if the suit is based on an account.

The city alleged in its suit that Prescott owed \$45.25 for water used in a house at 240 W. 5th St., \$46.05 for a home at 242 W. 5th and \$31.46 for a home at 242 Drury Ln.

Argentine Investigates Ex-Nazi Capture Report

Buenos Aires, Argentina (AP) — Argentine police are investigating reports that Israeli security agents captured Adolf Eichmann in Argentina and sneaked him out of the country last weekend.

The 54-year-old former Nazi officer charged with responsibility for the murder of six million Jews is being held in Israel under heavy guard to prevent lynch or suicide attempts before he is brought to trial for his life.

Reports of Eichmann's capture

in Argentina spawned speculation that the net also is closing around another Hitler henchman, Martin Bormann.
